

Dear Customer,

The REACH Regulation (EC) n. 1907/2006, concerns the Registration, Evaluation, Authorization, and restriction of chemical substances and has effectively entered into force starting 1 June 2008.

In accordance with REACH provisions, those who produce, or those who import articles from non-EU countries are required to meet the requirements of Art. 33 (1), relating to the obligation to communicate the possible presence of hazardous substances (SVHC - Substances of Very High Concern).

With reference to the above, we inform you that the products supplied to you do not contain quantities of substances of the Candidate List exceeding the limits defined by REACH, as reported on the Chemical Agency (ECHA) website at the address:

[http://echa.europa.eu/chem\\_data/authorisation\\_process/candidate\\_list\\_table.en.asp](http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table.en.asp)

**and updated to the latest revision.**

In the products supplied to you there are no substances included in Annex XIV and therefore subject to authorization (Title VII REACH) and the restrictions of the substances listed in Annex XVII of REACH are respected.

Annex XVII contains substances subject to prohibitions or restrictions of use even in articles and is constantly updated by Regulations published at the link:

<http://echa.europa.eu/it/regulations/reach/legislation>

We will take care to keep you updated in the future, if our products contain substances included in the attachments indicated above.

Best regards
