

Full compliance of TIE products with the European RoHS Directive

On November 21st 2017, the Directive 2017/2102 EU was published in the European Journal. This directive amends the directive 2011/65 / EU on the restriction of the use of certain hazardous substances in terms of eco-compatibility RoHS (Restriction of Hazardous Substances) in electrical and electronic equipment.

The directive applies, among other things, to various equipment including motorized roller insect screens and motorized panels with insect screening or solar protection screening.
